

AI Applied Researcher – Internship

Are you passionate about AI? Fascinated by Generative AI? Perhaps intrigued by LLMs and wish to train one by your own? If you're excited about the prospect of working with an advanced AI start-up working on cutting-edge tech, and are committed to shaping a future where AI is transforming customer engagement, we invite you to explore this opportunity.

Who we are ?

Brance is an early-stage AI start-up driven by an exceptional team with roots in Apple, Stanford, University of Michigan, IIT, and IIM, and backed by prominent VCs from India and abroad. We're breaking new ground by developing a real-time conversational agent (text and voice) to transform inside sales and customer support for companies offering high-value products. As a key member of our team, you'll be instrumental in shaping our AI technology stack.

We are currently seeking a highly skilled and dedicated AI Applied Research Intern to join our team. Our work culture is hybrid, with our core team based out of Delhi NCR. This is a paid position.

Responsibilities

- Develop advanced machine learning and AI models, with industry Ops standards.
- Maintain up-to-date knowledge of the latest AI research and technologies.
- Applying and conducting cutting-edge research.
- Collaborate with the engineering team to integrate AI models into our product.
- Identify and implement ways to enhance the performance of our AI models.
- Participate in research discussions, contribute innovative ideas, and propose novel AI solutions.
- Write clean, maintainable, and efficient code.
- Promote a positive and innovative company culture.

Requirements and Qualifications

- Currently pursuing a degree in Computer Science, or related field.
- Proven experience in AI research, particularly in Generative AI.
- Strong knowledge of Python and familiarity with AI/ML libraries (such as TensorFlow, PyTorch).

- Experience with Natural Language Processing (NLP) techniques and models.
- Proficiency in developing and implementing machine learning algorithms.
- Solid understanding of statistics and mathematical models underpinning AI/ML algorithms.
- Self-starter exhibiting ability to work and thrive in a fast-paced, start-up environment.
- Demonstrated experience in writing clean, efficient code and setting coding standards.
- Commitment to the long-term success and vision of the company.
- Excellent problem-solving, communication, and collaboration skills.

Be a part of our exciting journey as we redefine customer engagement. If you're as passionate about AI as we are and want to make a significant impact, we'd love to hear from you. Apply today!

Thanks

Team Brance Technologies.
